JULY PRICE INCREASES.

Dear customer,

Given the current market conditions we know how important it is that you are provided with advanced notice of any significant price changes. We are therefore advising you of some price increases on products that you have previously purchased.

As always, we are working hard behind the scenes with our suppliers to minimise all increases but we wanted to let you know the current projected increases to allow you to plan accordingly. These are planned to come into effect in July 2022.

Product Category	Price Increase	Product Category	Price Increase
Plaster	7%	Hand tools	4 – 6%
Plasterboard	8.6% - 12%	Bricks	Up to 9.5%
Concrete landscaping and Flag & Kerb	7.3%	Metalwork	12 – 15%
Glass wool insulation	28 – 32%	Rigid kitchens	9 – 10%
Roof windows	9%	Ceramic tiles	15%
Aggregated blocks	Varies by location**	Steel lintels	18%
Small aggregate bags	5%		

* Please note, the above increases do not apply to all products within the categories and only highlight the most relevant price increases.

** This increase will vary depending on your location, please speak to your nearest branch for more information.

Why we're increasing our prices.

Unfortunately, the market picture remains very much unchanged and similarly to previous months, disruption to the supply chain continues to be the biggest factor leading to increased prices. Other factors include increases in costs of energy, distribution, shipping containers and packaging. These prices are further compounded by the consistent increase in the cost of raw materials that are used in the production of the products we sell.

Keeping up to date.

To keep up to date with any other price increases and product availability, please visit our dedicated supplier updates page here: www.jewson.co.uk/supplier-updates

Managing your profits on a project.

We understand the impact that ongoing price increases have on your business, especially when the projects don't normally start straight away. The gap can be as little as a month or even as much as 12 months between estimating for a project and work starting on site. One of the ways we can help is with our Build Kickoff service as part of the Build Aviator Estimating service. In addition to the creation of an estimate to help you win more work we can now compare the original estimate that was used to win the project with our profit checker, a reworked version which would include current price increases and any changes that have been made to the project. This would give you confidence when the project goes live and work starts on site.

We look forward to continuing to work with you.

Yours Sincerely,
Jewson
